

LEWIS PHILLIPS

Performance Marketing Manager • Global Customer Acquisition
07596 916 503 · lewisdp87@gmail.com

PROFESSIONAL SUMMARY

Performance marketing manager with 11 years experience managing **£50M+ annual paid media investment** across Google, Microsoft, Meta, LinkedIn and Apple Search Ads. Experienced across 8 international markets, with a track record of improving performance through structured experimentation, AI assisted workflows and data-driven bidding strategy. Google Ads and Apple Ads certified, and former founder of a self-funded marketplace scaled to £1M/year.

EXPERIENCE

Angi Inc (NASDAQ: ANGI) - MyBuilder UK London

Performance Marketing Manager | 2020 - Present

MyBuilder is the UK's leading trades marketplace, operating within Angi Inc - a home services platform connecting homeowners with trade professionals across multiple international markets.

- Manage B2C homeowner acquisition across Google and Microsoft Ads, using trade and location-based tCPA models built from demand, margin and conversion data. Delivered a **12% cost reduction, 16.2% margin improvement and 19% growth** in high-value location conversions.
- Lead B2B contractor acquisition across a multi-step conversion funnel, from application start through to completed submission. Segmented campaigns by trade value and weighted funnel contribution, delivering around **30% CPA reduction and 20% YoY volume growth**.
- Launch and scale new paid social and programmatic channels at the top of the B2B funnel, testing platform fit before increasing budget and progressively optimising toward deeper conversion events as volume improves.
- Manage Apple Search Ads using a structured account setup across brand, competitor, discovery and high intent exact match campaigns. Built a keyword promotion workflow that reduced cost per install from **£2.09 to £0.52 - a 75% reduction**.
- Lead structured experimentation across bidding, creative and campaign architecture, using statistical validation where needed. Built RSA headline theme analysis to separate click-driving messages from conversion-driving messages, improving **impression-to-conversion rate by around 25%**.
- Build AI-assisted marketing workflows using Claude Code, Google Ads API and GTM to speed up search query analysis, generate keyword recommendations, support weekly performance reviews and detect conversion tracking issues before they affect reporting.
- Lead EU performance marketing teams through quarterly optimisation cycles, improving AdRank, supporting AI Max adoption and scaling new international markets while maintaining CPA efficiency.
- Partner with Product, UX, Analytics and Business Intelligence teams on landing page testing, revenue modelling and attribution, ensuring acquisition strategy is based on commercial value rather than last click reporting alone.

Lee Renée Jewellery London
Digital Marketing Consultant | 2022 - Present

Independent digital marketing consultant for a premium DTC jewellery brand, retained for 4+ years.

- Built the website, Google Ads account and SEO presence from scratch.
- Manage Search, Display remarketing, Shopping and PMax campaigns for a **5,000-SKU catalogue**, covering product feed optimisation, headline testing and keyword research.
- **Improved ROAS by ~78%** through ongoing bid strategy, campaign structure and ad copy optimisation.
- Grew organic visibility, achieving **top 5 rankings** for non-brand terms including cherry blossom ring, ladybird jewellery and book necklace.

The Pommier London
Founder | 2015 - 2020

Founded and scaled an omni-channel fashion marketplace combining eCommerce with two physical retail locations in Covent Garden and Shoreditch.

- Scaled to **~£1M annual revenue by year three** across multiple revenue streams, including SaaS style subscriptions, physical retail spaces and transaction fees across UK and international brands.
- Grew the B2B partner network to **260 independent fashion brands across 40 countries** through designer scouting and a HubSpot-powered email funnel, converting free sign-ups into premium subscriptions and upselling top sellers into store placement.
- Managed a **£25k/month** peak digital marketing budget across Google Search, Shopping, Display, Facebook and Instagram, including product feed management across **250k+ SKUs**.
- Hired and led a team of **11 employees** across retail, fulfilment, marketing and eCommerce operations.
